

# Label pin of cherry blossom

## Material

- Art Clay Silver 5g
- Soft mold Cherry blossom
- Pin/Butterfly Clutch

- Oil
- Cotton swabs
- Water
- Dryer
- Stainless steel pad or hand glass
- Basic tools
- Firing tools

- Please work on this project after you read the instruction of Art Clay.
- Moisturize silver clay with a small amount of water if the clay get dried.

1

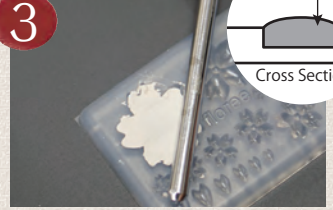

Paste a small amount of oil on the mold of cherry blossom part and wipe it by tissue or cotton swabs.

2

Bury 1.5g Art Clay Silver on the mold, try not to make the gap between clay and mold.

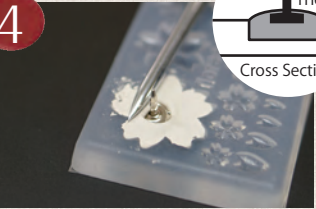

3

Moisturize the surface of clay. Cut the outline out by burnisher.

\*Be careful not to make the center part of cherry blossom to be too thin.

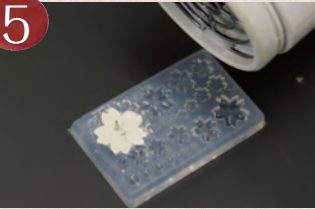

4

Push a needle metal fitting into clay and cover it by clay.

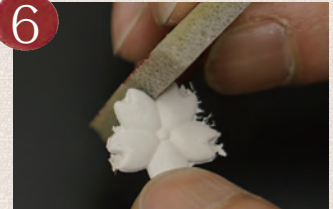

\*Try not to get the metal fitting appear on the surface.

5

Dry it by dryer with warm wind for 15 minutes. Place the piece on the stainless steel pad and slide it to see if there is a water steam on the pad. If no water steam appears, the process of drying is finished.

6

Make the surface smooth by sponge sanding pad (red) and fire it.

\*Please use tools such as stainless steel net or electrical kiln for firing.

7

After firing, make the surface silver by polishing with stainless brush.

8

You can make mirror surface by burnisher if you would like.

## Pin/Butterfly Clutch

The part of needle metal fitting can be fired with your art work.
